DETAILED ACTION

1. Applicant's Appeal Brief filed September 15, 2005 has been reviewed. The previous rejection is withdrawn pursuant thereto.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-81 are rejected under 35 U.S.C. 103(a) as being unpatentable over the John R. Johnson article titled "Raising Relationships II" published June 1999.

Johnson discloses on page 32, column 2, a "Five-part profitability" that is disclosed as having been delivered during the week of August 24, 1998 (see footnote 1). Official Notice is taken that a risk provision comprising an expected future loss that arises from one or more risk factors and predicting expected future losses at an account level has been common knowledge in the financial processing art. Further the dependent claim limitations are deemed to have been common knowledge in the art at least one year prior to Applicant's filing date. To have provided such for Johnson would have been obvious to one of ordinary skill in the art. It is noted that footnote 1 is a result of an NCR presentation. The full scope of what was presented during the contents related to footnote 1 and any other related pertinent information is requested.

3. Applicant's REMARKS from the Brief have been reviewed, but are moot in light of the new grounds of rejection.

4. A further reference of interest is noted on the attached PTO-892.
